

BACKUP & RECOVERY SERVICES

PROTECT YOUR BUSINESS FROM DISASTERS

When disaster strikes, every second that critical applications, systems, or even an entire location are down costs you money. Data loss, ransomware, and compliance requirements are all driving forces behind today's recovery strategies. While the root cause of an outage can vary, the solution is the same — you need to be able to recover your systems, applications, and data quickly and completely.

“The average annual cost of business interruption is **\$418,071.**”

- The Aberdeen Group

HOW MONTRA HELPS

Montra's Backup and Recovery services are delivered in conjunction with our Managed Security team to provide you with a holistic approach to improving reliability and security throughout your organization. We understand that properly preparing your business for a disaster in today's environment requires understanding best practices and techniques across a wide-range of scenarios and solutions. Our services are designed to insure that, if the unthinkable happens, we will have your business back up and running with our scalable backup and recovery solutions.

With Montra as your Backup and Recovery services partner you know that you are designed to provide an end-to-end approach that will provide you with more than just daily backups of your data. Our services include:

- BCDR Plan Development & Maintenance
- BCDR Preparedness Assessment
- Cloud Backup and Recovery
- Off-site Data Replication

COMPLETE PROTECTION FOR SYSTEMS, APPLICATIONS, AND DATA

Montra's Backup and Recovery Solution protects AWS, Azure, Hyper-V, and VMware VMs, as well as physical environments, regardless of underlying hardware. Our flexible and scalable solution allows you to build and deploy the optimal site recovery option for your critical assets. Benefits Include:

One backup solution
for all your
data

Constant evolution of
best practices and new
technologies

Fully automated
disaster recovery
failover

Reliable & Scalable
end-to-end data
protection

Encryption capabilities
for enhanced data
security

GAIN FULL VISIBILITY INTO YOUR DATA PROTECTION

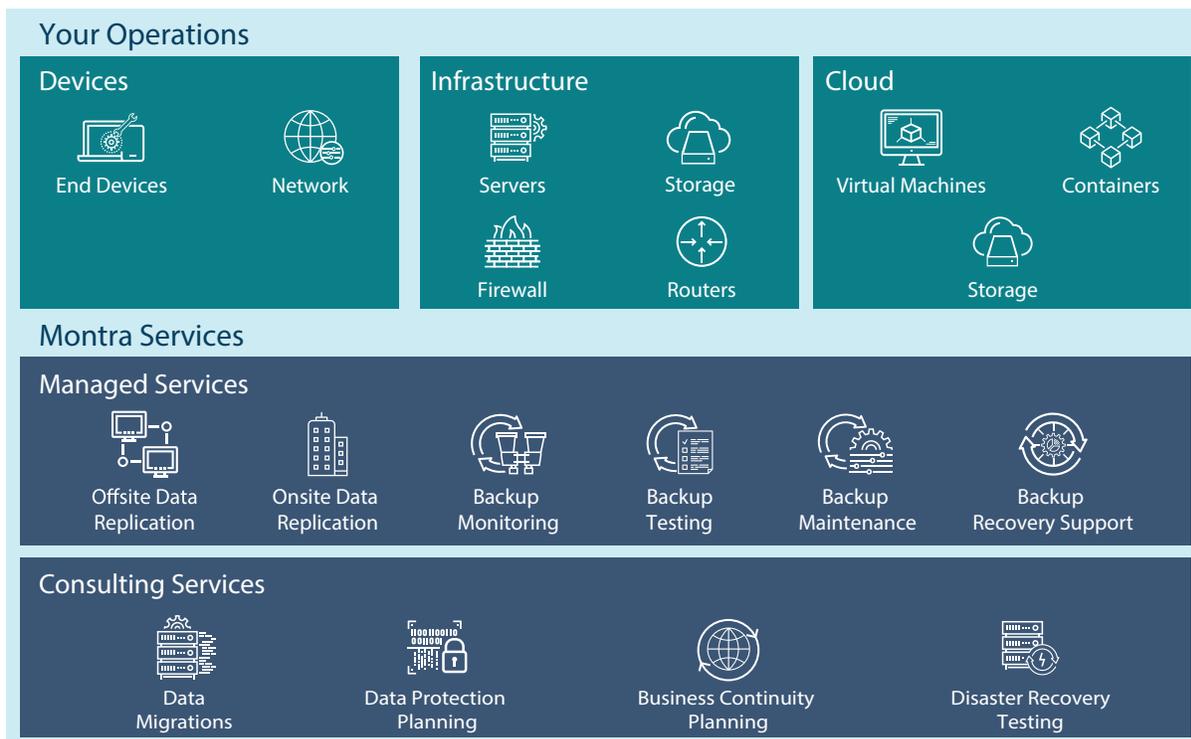

Montra's Backup and Recovery offering leverages **VIA**, our data visualization tool that uses highly automated data and security orchestration to provide you with a single view of your entire IT operation. Through 24x7 monitoring and real-time alerting, you can zero in on anomalous events in your environment that could result in downtime or an outage.

Montra VIA leverages rich reporting techniques that provide your organization with the ability to create reports for any piece, block, or trend of information. These reports help you understand the status of your backup and disaster recovery services all from a single view.

SERVICES INTEGRATED INTO YOUR EXISTING OPERATIONS

Regardless of what you prioritize in relation to your ability to recovery from a disaster, Montra Solutions alleviates the stress of managing your backups and testing your disaster recovery practices and techniques through our managed service offerings. Our team delivers a comprehensive approach to Backup and Recovery that is designed around your business' needs and objectives.

ABOUT MONTRA SOLUTIONS

Montra Solutions is a software-enabled managed services provider specializing in Cloud, Security, Devices, and Infrastructure solutions. Headquartered in Atlanta, Montra simplifies the management of increasingly complex IT operations with software that better integrates and automates the monitoring and management of modern IT. Montra's innovations are enabling scalability and consolidation for the highly fragmented, multi-billion-dollar managed services industry.
