

MANAGED SECURITY SERVICES

ENTERPRISE-LEVEL SECURITY WITHOUT THE COMPLEXITY

GROWING SECURITY CONCERNS

The need to protect against information security threats has never been greater. Security challenges are growing—including increasingly sophisticated attacks, the erosion of the corporate perimeter, and extensive regulatory requirements. These are now compounded by hybrid enterprise cloud architectures, device proliferation, and dynamically changing networks.

HOLISTIC SERVICES

At Montra, we offer a full suite of managed security solutions that protect you from everything from loss of data to the latest malware attack. Our experts can provide everything from the initial design, deployment, and configuration, to ongoing management, monitoring, and reporting for continuous, up-to-the-minute protection.

EXPERT SECURITY SUPPORT

Our experts build and manage an integrated, consistent, and layered security approach centered around a holistic, connected security model that considers both the threats outside the enterprise and the dangers of data loss from within to provide you with the most reliable protection of your digital property.

GAIN FULL VISIBILITY INTO YOUR COMPLIANCE STATUS

Your security devices have proliferated, and disparate applications and vendors have led to decreased visibility into the state of your IT environment as a whole, causing you to lose control of your security status and limit your effectiveness at responding to threats.

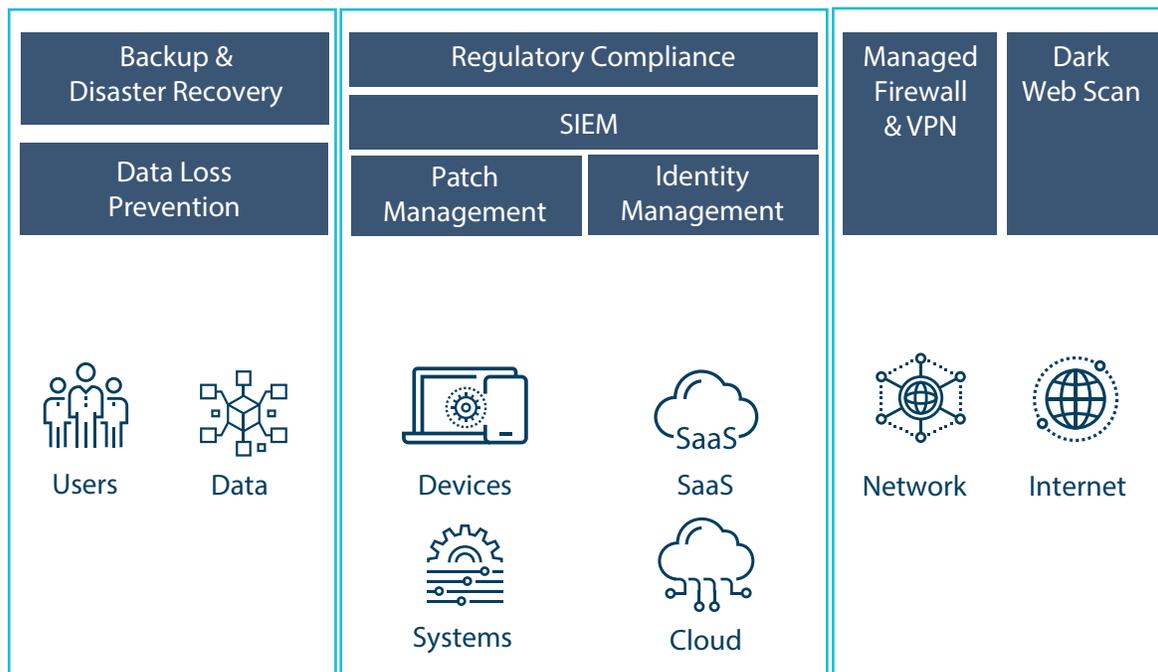

At Montra, we understand that these visibility concerns need to be a thing of the past. When you trust Montra with your business' protection, you get access to VIA which shows you the status of every device in your operation. Whether a system gets breached, a SaaS provider is down, or backups get lost, you have the data you need to respond to threats right at your fingertips.

SERVICES INTEGRATED INTO YOUR EXISTING OPERATIONS

Montra designs all of our service offerings to integrate seamlessly within your operations for minimal disruptions to your day-to-day business.

MONTRA SERVICES

ABOUT MONTRA SOLUTIONS

Montra Solutions is a software-enabled managed services provider specializing in Cloud, Security, and Infrastructure solutions. Headquartered in Atlanta, Montra simplifies the management of increasingly complex IT operations with software that better integrates and automates the monitoring and management of modern IT. Montra's innovations are enabling scalability and consolidation for the highly fragmented, multi-billion-dollar managed services industry.
