# MANAGED INFRASTRUCTURE SERVICES

YOU TELL US WHAT YOU NEED. WE'LL MANAGE YOUR ENVIRONMENT

A MODERN APPROACH TO TECHNOLOGY INFRASTRUCTURE

Adoption of new and emerging technologies has led to a complex and sprawling IT infrastructure that requires new approaches to manage well. Montra's services are built on leading-edge technologies and methodologies to provide infrastructure management designed for today's IT and business challenges.

MANAGED BY INDUSTRY EXPERTS

Montra's experienced infrastructure specialists take a proactive role in managing your IT infrastructure and your end-user systems. From the desktop to the data center, our certified Microsoft, VMware, and Cisco engineers have deep experience with all aspects of virtualization, networking, servers and patch management.

FREEDOM TO CHOOSE

Whether your infrastructure is hosted with us, somewhere else, on premises – or any hybrid combination, our experts serve as a logical and economical extension of your IT team to provide single-source solution to help you build, monitor, manage and support your enterprise systems and networks.

GAIN FULL VISIBILITY INTO YOUR COMPLIANCE STATUS

Montra's Managed Infrastructure Services aim to eliminate the stress of managing your IT systems. While our experts manage your systems, you never have to worry about the status of a ticket or device. We provide full transparency through our single-pane management interface VIA.
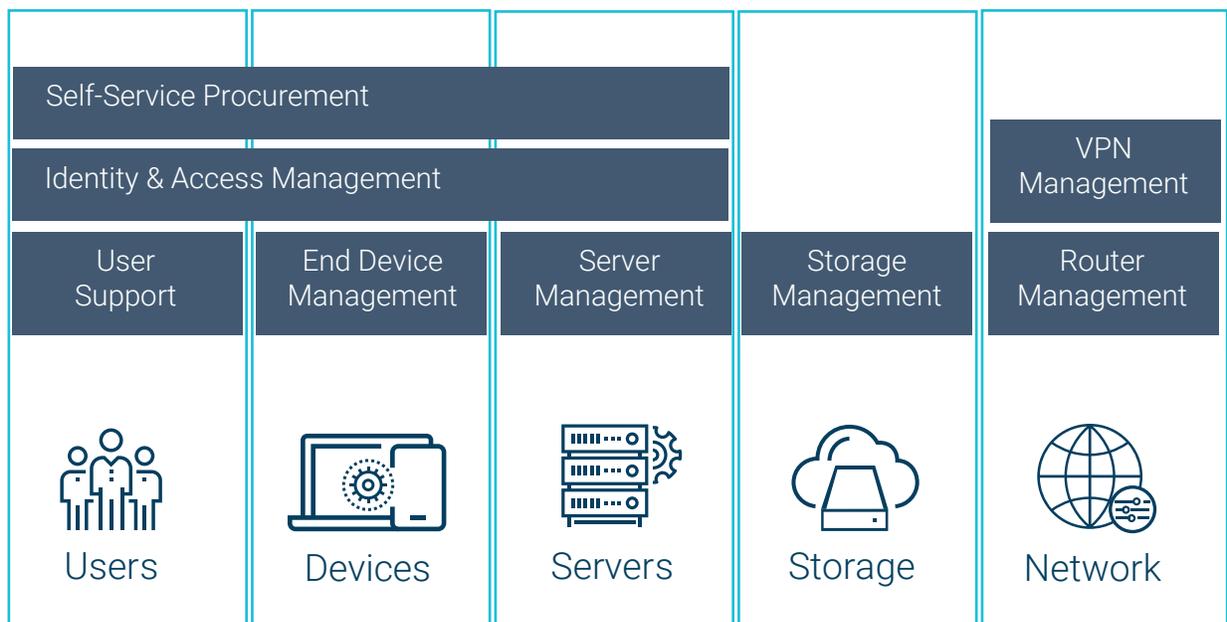

VIA provides you with instant access to information about any system, change management, or user in your environment. With VIA, you can be sure that your partnership with Montra will allow you to minimize operational complexity, maximize your IT investments, and experience a significant and measurable reduction in risk.

SERVICES INTEGRATED INTO YOUR EXISTING OPERATIONS

Montra designs all of our service offerings to integrate seamlessly within your operations for minimal disruptions to your day-to-day business.
