

DARK WEB SECURITY SERVICES

50%

of all sites on the Dark Web are used for criminal activities, such as the sale of digital credentials.

81%

of hacking-related breaches leverage either stolen and/or weak passwords.

WE GO INTO THE DARK WEB TO KEEP YOU OUT OF IT

SECURITY SERVICES BUILT FOR THE UNKNOWN

The Dark Web is made up of digital communities that sit on top of the Internet, and while there are legitimate purposes to the Dark Web, it is estimated that over 50% of all sites on the Dark Web are used for criminal activities. Far too often, companies are made aware of compromised credentials after they have been sold and successfully used in a data breach.

Montra's Dark Web Monitoring Services are a combination of human and sophisticated Dark Web intelligence that provide you a full picture of your company's security posture highlighting risks from both outside and inside your organization.

OUR SERVICES

DARK WEB MONITORING

Montra's Dark Web Monitoring services leverage award-winning technologies that combines human and sophisticated Dark Web intelligence with search capabilities to identify, analyze and proactively monitor for an organization's compromised or stolen employee and customer data. Our Dark Web Monitoring Services work 24/7/365 to detect and credentials or data on:

- ✔ Hidden Chat Rooms
- ✔ Private Websites
- ✔ Peer-to-Peer Networks
- ✔ IRC (Internet Relay Chat) Channels
- ✔ Social Media Platforms
- ✔ Black Market Sites
- ✔ 640,000+ Botnets

ADDITIONAL SERVICES:

- ✔ Proactive Monitoring of Stolen Credentials to Prevent any Attacks to your Network
- ✔ Extensive Reporting Capabilities Designed to Track and Triage Incidents
- ✔ Predictive Analytics Show You Industry Patterns Long Before They Become Trends

PHISHING SIMULATION & TRAINING

With Montra's Phishing Simulation & Training Services we train your employees on what modern Phishing campaigns look like, then send scheduled phishing campaigns to determine where weak links still occur. These campaigns include customized messages to fit each group or department, and can be sent at random times during a specified period.

IDENTITY THEFT MONITORING

With data breaches at a staggering rise, cyber criminals are more motivated than ever to profit from your compromised data. Montra Solutions will monitor your identity to allow you to minimize risk and protect your personal information from being misused. Our team leverages industry leading technology that is more comprehensive, secure, and price-friendly than other Identity Theft Monitoring solutions on the market. Services include:

- ✔ PII Monitoring (Name, Date of Birth, Social Security Number, Address, Emails, and Passwords)
- ✔ Family Social Media Account Targeting Notification
- ✔ Credit Updates, Alerts, and Access from all 3 major credit bureaus
- ✔ US-based team of Certified Identity Restoration Specialists will work to restore your identity if needed.
