

MONTRA PLATFORM

IT CONTROL OF EVERYTHING, EVERYWHERE, ALL AT ONCE

As your organization expands you have people and devices wherever they are needed for your business. Managing and securing your IT in this expanding environment.

The Montra Platform directly integrates with the services and devices you already use to enable automated workflows that allow you to run more efficiently and securely from any location.

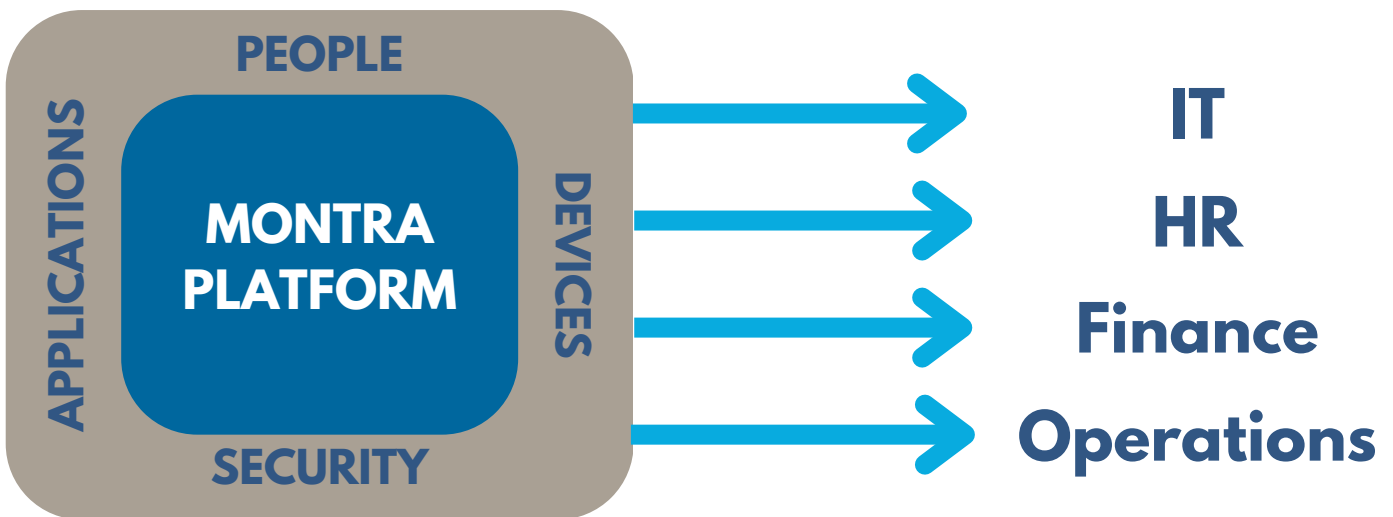

Montra is the control panel that you did not know you could have to give you unprecedented visibility and control of your distributed operation.

AT A GLANCE

Manage from Anywhere

- Remote Workforce
- Remote Devices
- Nationwide Logistics
- Application Access
- Security /Compliance

IT MANAGEMENT AS A SERVICE FOR MODERN ORGANIZATIONS

Employee IT Onboarding

Device Monitoring

Logistics Management

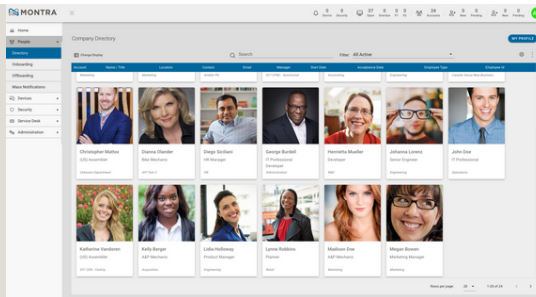

Workforce Alerting

Security Monitoring

Returns & Repairs Management

MANAGE YOUR REMOTE ORGANIZATION WITH MONTRA

The Montra Platform automates some of the most critical technology processes in your business including:

Workforce

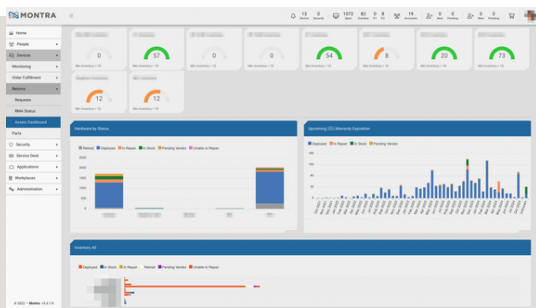

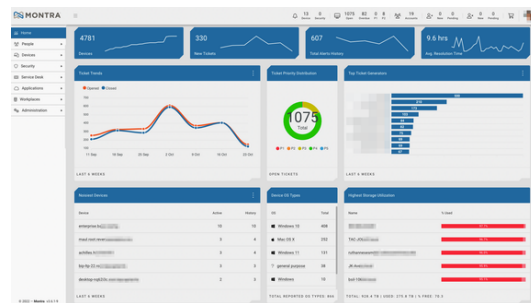

Employee Onboarding/Offboarding, Identity Management, and Alerting

Accelerate the IT onboarding process to improve employee satisfaction, Keep employee information accurate across all systems, Ensure all employees receive alerts and news quickly and accurately, and Remove employee access immediately for security and compliance

Devices

Device Monitoring and Management

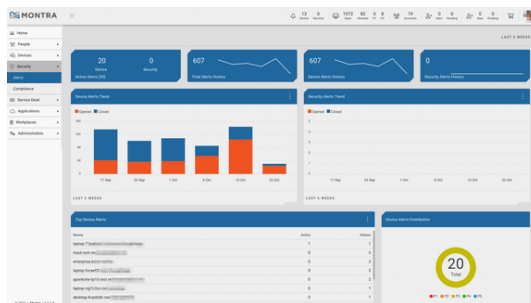

See where your devices are, who is using them, and what they are doing; Keep devices updated and protected against security problems

Logistics

Procurement, Warehousing, Fulfillment and Returns

Simplify the complexity of provisioning and deploying remote devices, Manage fleets of devices whether they are in the field or in storage, and Simplify device returns for repair and managing your inventory of spares.

Security

Security and Compliance Management

Stay on top of the security of your people, devices and applications, wherever they are deployed and actively enforce the policies necessary to maintain the cyber-compliance programs that matter to your organization
